

UCF

Jump Start *your* Ph.D. Journey

Apply by
November 15
to get your
application fee waived!

Start your application by scanning the QR Code or
visiting <https://applynow.graduate.ucf.edu/apply/>

APPLY BY
**Nov. 15,
2021**
FOR
FALL 2022
ADMISSION

Apply Now

Application fee is waived if you apply by
Nov. 15 to the following Ph.D. programs:

- ▶ Aerospace Engineering
- ▶ Civil Engineering
- ▶ Computer Engineering
- ▶ Computer Science
- ▶ Electrical Engineering
- ▶ Environmental Engineering
- ▶ Industrial Engineering
- ▶ Materials Science and Engineering
- ▶ Mechanical Engineering

▶ HOW TO APPLY

For information on UCF graduate admissions requirements that apply to all prospective students, visit the Admissions and Registration section of the Graduate Catalog. Applicants must apply online at <https://applynow.graduate.ucf.edu/apply/>

Enter fee waiver code
CECS_PhD_F22

Code expires 11:59 a.m., Nov. 15, 2021

CECS Research Funding
has averaged
**\$48
million**
annually since 2018

Our Alumni and Students Say:

"UCF's many research opportunities connect academic work with real-world engineering problems and practitioners on a local and global scale."

– Ryan Shamet, Ph.D.

"UCF was the perfect place for me to obtain my degrees. My classes were relevant and interesting, the PhD process was organized, my committee was responsive and supportive, and the environment was flexible."

– Melissa Francisco, Ph.D.

"The CECS doctoral program at UCF offers a highly intellectual atmosphere and an opportunity to work with some of the most interesting and brightest minds. We work closely with industry and create advanced technology in state-of-the-art laboratories."

– Deepa Lakshmi, Ph.D. candidate

"I have learned how to 'dream big dreams' and about global innovation, which has encouraged me to pursue my aerospace and biomedical engineering research on a global scale."

– Albert Manero, Ph.D.
